International Journal of Industrial Ergonomics, 12 (1993) 319–320
Elsevier

Author index volume 12

(The issue number is given in front of the page numbers)

Adams, P.S. and **W.M. Keyserling**, Three methods for measuring range of motion while wearing protective clothing: A comparative study (3) 177–191
Armstrong, T.J., *see* **Ulin, S.S.** (1–2) 105–115

Blüthner, R., B. Hinz, G. Menzel and **H. Seidel**, Back muscle response to transient whole-body vibration (1–2) 49– 59
Bowen, D., *see* **Ray, P.S.** (3) 193–198
Bridger, R.S., *see* **Schierhout, G.H.** (1–2) 3– 11

Caffier, G., D. Heinecke and **R. Hinterthan**, Surface EMG and load level during long-lasting static contractions of low intensity (1–2) 77– 83
Carter, N., *see* **Menckel, E.** (4) 301–309

Dahalan, J.B. and **J.E. Fernandez**, Psychophysical frequency for a gripping task (3) 219–230
Davidoff, N.A. and **A. Freivalds**, A graphic model of the human hand using CATIA (4) 255–264

Eckert, R., *see* **Schmauder, M.** (3) 231–237
Engkvist, I.-L., *see* **Lindbeck, L.** (1–2) 117–125
Engström, T., *see* **Johansson, J.Å.** (1–2) 35– 48

Fernandez, J.E., *see* **Dahalan, J.B.** (3) 219–230
Fernandez, J.E., *see* **Kim, C.-H.** (3) 209–218
Fernandez, J.E., *see* **Stubbs, N.B.** (4) 265–272
Founooni-Fard, H. and **A. Mital**, A psychophysiological study of high and very high frequency manual materials handling: Part I – Lifting and lowering (1–2) 127–141
Founooni-Fard, H. and **A. Mital**, A psychophysiological study of high and very high frequency manual materials handling: Part II – Carrying and turning (1–2) 143–152
Freivalds, A., *see* **Davidoff, N.A.** (4) 255–264
Frings-Dresen, M.H.W., *see* **van der Beek, A.J.** (1–2) 13– 23

Gagnon, D. and **M. Gagnon**, The role of general motion principles in asymmetrical lifting (4) 289–300
Gagnon, M., *see* **Gagnon, D.** (4) 289–300
Garand, D., *see* **Kumar, S.** (1–2) 153–162
Glenn, W.M., *see* **Stubbs, N.B.** (4) 265–272
Graf, M., U. Guggenbühl and **H. Krueger**, Investigations on the effects of seat shape and slope on posture, comfort and back muscle activity (1–2) 91–103
Grant, K.A. and **D.J. Habes**, Effectiveness of a handle flange for reducing manual effort during hand tool use (3) 199–207
Guggenbühl, U., *see* **Graf, M.** (1–2) 91–103
Guldberg, H.H., *see* **Oxenburgh, M.S.** (4) 241–253

Habes, D.J., *see* **Grant, K.A.** (3) 199–207
Hagen, K.B., Longer lifting hooks for forestry workers: An evaluation of ergonomic effects (3) 165–175
Heinecke, D., *see* **Caffier, G.** (1–2) 77– 83
Hellbom, M., *see* **Menckel, E.** (4) 301–309
Hinterthan, R., *see* **Caffier, G.** (1–2) 77– 83
Hinz, B., *see* **Blüthner, R.** (1–2) 49– 59
Hyytiäinen, K., *see* **Wickström, G.** (1–2) 25– 33

Imrhan, S.N., M.-T. Nguyen and **N.-N. Nguyen**, Hand anthropometry of Americans of Vietnamese origin (4) 281–287

Johansson, J.Å., R. Kadefors, S. Rubenowitz, U. Klingenstierna, I. Lindström, T. Engström and **M. Johansson**, Musculoskeletal symptoms, ergonomic aspects and psychosocial factors in two different truck assembly concepts (1–2) 35– 48
Johansson, M., *see* **Johansson, J.Å.** (1–2) 35– 48

Kadefors, R., *see* **Johansson, J.Å.** (1–2) 35– 48
Kemper, H.C.G., *see* **van der Beek, A.J.** (1–2) 13– 23
Keyserling, W.M., *see* **Adams, P.S.** (3) 177–191
Kim, C.-H. and **J.E. Fernandez**, Psychophysical frequency for a drilling task (3) 209–218
Klingenstierna, U., *see* **Johansson, J.Å.** (1–2) 35– 48
Krueger, H., *see* **Graf, M.** (1–2) 91–103
Kumar, S., A. Mital, D. Garand and **A. Persad**, Operator stress in palletizing tasks with restricted access and headroom (1–2) 153–162

Laine, M., *see* **Wickström, G.** (1–2) 25– 33
Lammi, S., *see* **Takala, E.-P.** (1–2) 85– 90
Laughery, K.R. and **K.P. Vaubel**, Major and minor injuries at work: Are the circumstances similar or different? (4) 273–279
Lindbeck, L. and **I.-L. Engkvist**, Biomechanical analysis of two patient handling tasks (1–2) 117–125
Lindström, I., *see* **Johansson, J.Å.** (1–2) 35– 48

Meijman, T.F., *see* **van der Beek, A.J.** (1–2) 13– 23
Menckel, E., N. Carter and **M. Hellbom**, The

long-term effects of two group routines on accident prevention activities and accident statistics (Case study) (4) 301–309
Menzel, G., *see* **Blüthner, R.** (1–2) 49– 59
Mital, A., *see* **Founooni-Fard, H.** (1–2) 127–141
Mital, A., *see* **Founooni-Fard, H.** (1–2) 143–152
Mital, A., *see* **Kumar, S.** (1–2) 153–162
Monroe-Keyserling, W., *see* **Ulin, S.S.** (1–2) 105–115
Myers, J.E., *see* **Schierhout, G.H.** (1–2) 3– 11

Nevala-Puranen, N., K. Taattola and **J.M. Venäläinen**, Rail system decreases physical strain in milking (Case study) (4) 311–316
Nguyen, M.-T., *see* **Imrhan, S.N.** (4) 281–287
Nguyen, N.-N., *see* **Imrhan, S.N.** (4) 281–287
Nieminen, H., *see* **Takala, E.-P.** (1–2) 85– 90

Oxenburgh, M.S. and **H.H. Guldberg**, The economic and health effects on introducing a safe manual handling code of practice (4) 241–253

Pentti, J., *see* **Wickström, G.** (1–2) 25– 33
Persad, A., *see* **Kumar, S.** (1–2) 153–162
Purswell, J.L., *see* **Ray, P.S.** (3) 193–198

Ray, P.S., J.L. Purswell and **D. Bowen**, Behavioral safety program: Creating a new corporate culture (3) 193–198
Rubenowitz, S., *see* **Johansson, J.Å.** (1–2) 35– 48

Schierhout, G.H., J.E. Myers and **R.S. Bridger**, Musculoskeletal pain and workplace ergonomic stressors in manufacturing industry in South Africa (1–2) 3– 11
Schindhelm, R., *see* **Schmauder, M.** (3) 231–237
Schmauder, M., R. Eckert and **R. Schindhelm**, Forces in the hand-arm system: Investigations of the problem of left-handedness (3) 231–237
Seidel, H., *see* **Blüthner, R.** (1–2) 49– 59
Selonen, R., *see* **Wickström, G.** (1–2) 25– 33
Snook, S.H., *see* **Ulin, S.S.** (1–2) 105–115
Stubbs, N.B., J.E. Fernandez and **W.M. Glenn**, Normative data on joint ranges of motion of 25- to 54-year-old males (4) 265–272

Taattola, K., *see* **Nevala-Puranen, N.** (4) 311–316
Takala, E.-P., S. Lammi, H. Nieminen and **E. Viikari-Juntura**, Electromyographic changes in the static holding test of the arm (1–2) 85– 90

Ulin, S.S., T.J. Armstrong, S.H. Snook and **W. Monroe-Keyserling**, Examination of the effect of tool mass and work postures on perceived exertion for a screw driving task (1–2) 105–115

van der Beek, A.J., M.H.W. Frings-Dresen, F.J.H. van Dijk, H.C.G. Kemper and **T.F. Meijman**, Loading and unloading by lorry drivers and musculoskeletal complaints (1–2) 13– 23
van Dijk, F.J.H., *see* **van der Beek, A.J.** (1–2) 13– 23
Vaubel, K.P., *see* **Laughery, K.R.** (4) 273–279
Venäläinen, J.M., *see* **Nevala-Puranen, N.** (4) 311–316
Viikari-Juntura, E., *see* **Takala, E.-P.** (1–2) 85– 90

Wickström, G., K. Hyytiäinen, M. Laine, J. Pentti and **R. Selonen**, A five-year intervention study to reduce low back disorders in the metal industry (1–2) 25– 33
Wikström, B.-O., Effects from twisted postures and whole-body vibration during driving (1–2) 61– 75
